RE: Carlsbad Coastal Power Plant

Dear Sir:

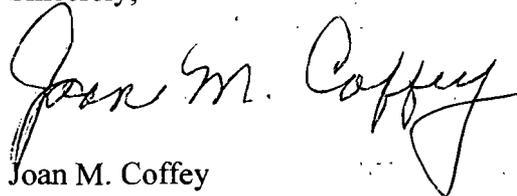

We were unable to submit our comments at the committee meeting held February 1 & 2.

We would like you to consider the following comments when you vote on this project.

- 1) We do **not want this project** to proceed in Carlsbad.
- 2) There is **no contract with SDG&E for power to serve the citizens of Carlsbad.**
Why does the power plant have to be on our **coastline?**
- 3) It will only make Carlsbad San Diego County's **industrial epicenter** for no good reason
- 4) It will **decrease property values** and create an **economic hardship** to our tourism industry.
- 5) It will increase our **air pollution.**

As a citizen of Carlsbad North County, I hope we have the **power to stop this plant** from ruining our coastline and lives.

Sincerely,

Joan M. Coffey
