Re: Docket # 07AFC -6

Dear Sirs:

I write in support of the NRG West application for a second power plant at its current site. Please don't believe that all citizens of Carlsbad are against the proposal. The Carlsbad City Council is greedily eyeing the land for more development; there are those of us who have no desire to see more tourist traffic along Carlsbad Boulevard impacting our infrastructure. I drive Carlsbad Boulevard south daily on my way to work and am constantly reminded what a mess it would be if there was additional traffic emanating from the plant site.

In spite of increased need for power because of a refusal to stop development, people are working on a "not in my backyard" mentality. As a long-time resident of Carlsbad (1954), I saw the current plant go up (can see it from my house), the freeway built alongside it, and housing surround it. We adapted and will continue to do so.

Let the approval of the plan as recommended by the staff of the California Energy Commission stand.

Jeanette Cushman
