"Docket No. 07-AFC-6"
I oppose power plants in Carlsbad

Energy Commission Docket Unit
Docket No. 07-AFC-6
1516 Ninth Street, MS-4
Sacramento, CA 95814

DOCKET
07-AFC-6

DATE FEB 16 2010

RECD. FEB 22 2010

Dear Energy Commission Officer:

My name is Dan Collins and I oppose all power plants in Carlsbad.

N.R.G. is only considering this site because of convenience, as they have proceeded without local government, coastal commission, citizen, environmental agencies support. Their support comes from those paid to support them. I have attended four meetings and it is very apparent.

No one benefits from known cancer causing emissions. I received a letter in the mail which indicated that our air quality will be impacted by the new plant, and my family will be subjected to these pollutants. Please stop this project. We must stop now. Some people say we need energy, but if there is no quality air to breath, who will need the energy? The energy to be supplied will be sold out of state. Is this about money for N.R.G. and the state? The President and EPA have announced that power plants such as the one being proposed by N.R.G. is dangerous to humans.

Please rethink and stop this project now. All of our state citizens health is at stake. The City of Carlsbad and our community wants green energy. A lot has been discovered since this project was first proposed. New technology is abundant. Please do not allow this power plant to be built in Carlsbad or anywhere. Approve a green energy facility, and let's move forward protecting our beautiful planet.

Sincerely,

Dan Collins
Concerned Father
