Re: Docket # 07AFC
Dear Sirs:

I write in support of the NRG West application for a second power plant at its current site. Please don't believe that all citizens of Carlsbad are against the proposal. The Carlsbad City Council is greedily eyeing the land for more development; there are those of us who have no desire to see more tourist traffic along Carlsbad Boulevard impacting our infrastructure.

Let the approval of the plan as recommended by the staff of the California Energy Commission stand.

David Stroh
