**Energy Commission Docket Unit  
Docket No. 07-AFC-6  
1516 Ninth Street, MS-4  
Sacramento, CA 95814**

**Dear Commissioners:**

**I am writing in support for the proposed Carlsbad Energy Project, recognizing that more resources are needed for the area. However, I now understand that there is another effort by Carlsbad to change the location for the Energy Center Project from the site approved by the commission.**

**Alternative sites were judged unfeasible due to serious environmental impact, adverse impacts on communities outside of Carlsbad as well as insufficient electrical transmission capacity. All of these were cited in the original decision and I urge you to follow the wise decisions of your staff.**

**Sincerely,**

**Gloria Millikin**
