Energy Commission Docket Unit
Docket No.07-AFC-6
1516 ninth St. MS-4
Sacramento, CA 95814

Dear Commissioners:

I would like to express my support for the proposed Carlsbad Energy Center Project. The Energy Center would provide an economical supply of electricity for the residents of North San Diego County.

I believe that the proposed site is the perfect location for this project. Other sites do not seem to be inadvisable due to adverse environmental and community impacts and do not deliver sufficient electrical transmission capacity.

Please approve the sustainable Carlsbad Energy Center proposal.

Sincerely,

Robert S. Verran
