Subject: Docket No. 07-AFC-6 Carlsbad Power Plant

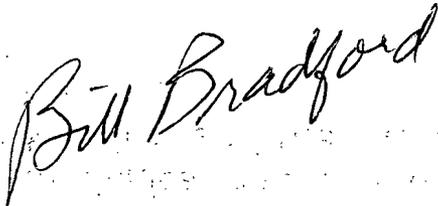

I was born in Oceanside and have lived in Carlsbad for most of my life. I have endured the existing power plant for a very long time and have looked forward to the eventual removal of this eyesore.

I am very much against this new powerplant project.

1. It makes very poor use of our valuable coastline and is a terrible visual scar in the prime part of our tourist community.
2. It invites terrorism because of the proximity to a very busy Interstate 5 freeway.
3. There is no technological reason to place an air-cooled system in this location, and there are many reasons to place it elsewhere.
4. It will reduce property values of my home and my investment properties in the area, thereby reducing taxes collected by the State of California.
5. It condemns our coastline for another half-century or more....for my grandchildren and beyond.

Please ensure that the power plant is placed in a more appropriate place!

Sincerely,

William Bradford
