Jan. 29, 2010

Dear Commissioners,

We are 16 year residents of Carlsbad and would be extremely upset if the proposed power plant is built on the site near the old one. The old one is indeed an eyesore on the beautiful coast line of our downtown area and should be replaced with one well inland. This new one you have planned is a hideous monstrosity and would be a blight to the whole North County coastline.

We beg of you, please, please do not approve this huge mistake. We do not want heavy industry on our magnificent coastline.

Thank you,

**Sal Savastio**
