To Whom It May Concern:

We are writing this letter to urge you to approve the NRG power plant in Carlsbad at its current proposed site (at the beach adjacent to the 5 Freeway) recommended by CEC staff.

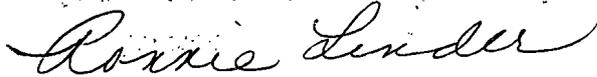

As residents of Ocean Hills Country Club located in Oceanside, we have very serious concerns about alternative sites proposed by the City of Carlsbad which would have the power plant located inland and very close to our highly populated community. These concerns include health risks due to increased pollutants, fire safety issues, noise pollution, the impact on the environment, safety regarding McClellan-Palomar Airport, and a likely reduction in home values.

We appreciate your taking our concerns into account in your decision making.

Sincerely,

Robert Linder
