Subject: Fwd: Carlsbad Power Plant - No Thank You

Hello,

I would like to docket the email attached below. I will also bring up a paper copy.

>>> christopher hotell <chris@nicereusables.com> 3/28/2010 3:15 PM >>>

My name is Chris Hotell, and my wife Gretchen and I are homeowners and members of the Carlsbad Community. We are both very concerned about the power plant build on our beautiful coastline. For many reasons we feel that this project should not happen on our coastline. After reading through all the of the literature around the debate of for/against the power plant we strongly feel that there are no positive benefits of adding onto and extending the life of the power plant for any community members.

-The plant is currently an eyesore and has incredibly negative stigma attached to it ultimately devaluing all property value in this community and those surrounding our community.

-There are other locations where this plant can be built if it is necessary...inland where it can't be visible.

-We don't benefit from the power however we are negatively impacted by the plants presence.

I'm sure you have received thousands of emails. Please know that Chris Hotell and Gretchen Bleiler are strongly against this build in our beautiful community and along the amazing coastline where we spend all of our free time. We appreciate you hearing our concerns.
