**Do not approve this power plant**

**The community does not want another power plant**

**We get our tax dollars from residents and tourists, neither one will want the unsightly and pure unecessariness of another power plant in our town.**

**Please do not allow this to go on!!! This process must stop.**

**My children want to raise their children here. Think of our future generations!**

Specific time for Public Comments has been set aside beginning at 5:30 p.m.

The Hearing record is being reopened to consider fire suppression systems; recent power plant fires in Connecticut and Escondido; lessons learned from the Japanese earthquake and resulting tsunami; federal standards for NO2; and the extraordinary public purpose requirements of South Carlsbad Redevelopment Plan.

Please attend this vitally important meeting and let the CEC know this power plant must not be finally approved by the full commission. There is still no contract with SDG&E for the output. Construction of a new power plant adjacent to a widened I-5 will create visual blight that cannot be sufficiently mitigated, and there is no plan for the total shut down of the old power plant. Carlsbad no longer needs or wants a power plant on the beach!

While your personal appearance and comments at the Hearing will be most helpful, written comments can also be sent to The California Energy Commission until 5 p.m., June 8, 2011. Submit your comments along with your name/organization by email to <mailto:docket@energy.state.ca.us> or Energy Commission Docket Unit, 1516 Ninth Street, MS-4, Sacramento, CA 95814. Identify all comments with "Docket No. 07-AFC-6."

Bring your friends and neighbors. See you at the Hearing.
