Subject: KRCD CPP - Supplemental Data Response filing

Hi Shaelyn -

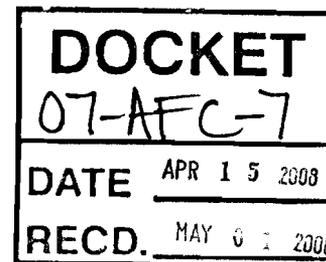

KRCD will be filing a second set of responses to Data Request set 1-89 before the end of April. This will be followed with another set of responses to some of the remaining data requests in mid-May.

If it works for you , we were going to use the same format used for the initial Data Request Response filing (date February 25, 2008).

In some cases our response will be a revision or update to the February 25th response. In the next few Data Request filings would you prefer that we include the original February 25th response as well as the updated response, or should we just include the updated response.

Thanks much for your help.
