<b>DOCKET</b> 07-AFC-7	
DATE	AUG 29 2008
RECD.	AUG 29 2008

Subject: **COMMUNITY POWER PROJECT (07-AFC-7) STATUS REPORT #6**

Pursuant to direction from the Hearing Officer dated June 23, 2008, the following is the Energy Commission staff's Status Report #6 for the proposed Community Power Project (CPP).

Staff has been working through the analysis phase of the Application for Certification (AFC) process for the proposed CPP.

1. The applicant has not responded fully to Round #1 Data Requests, filed on January 23, 2008. Outstanding Data Responses; Biological, Cultural, and Hazardous Waste surveys and studies; the Phase I Environmental Site Assessment (ESA); Alternatives Level Analysis of the PG&E transmission line reconductorings ; and AFC Supplement B, which will include minor transmission line reroutes, a new 60-acre construction staging area for the primary project site, and three new construction staging areas along the gas pipeline routing, are all expected to be filed between late August and mid-October, as noted in Status Report #5. Staff still anticipates that a second round of data requests will be needed to address the supplemental submissions, study results, ESA, and proposed mitigation plans.
2. The San Joaquin Air Pollution Control District is still not expected to issue a Preliminary Determination of Compliance (PDOC) until late fall 2008.

**Schedule**

Given the continuing need for the information noted above, anticipated changes to the project, delay in the availability of a PDOC, and the high workload of other siting cases, staff does not expect to be able to complete a Preliminary Staff Assessment until late 2008 or early 2009. A more specific recommendation for a revised schedule will be provided in the status report following submission of one or more of the filings indicated above.
