Public meeting held on local power plant

Selma Enterprise (CA) - March 4, 2008

Author: Enterprise staff

People with concerns or questions regarding the power plant proposed to be built on Bethel Avenue will have their chance to be heard on Thursday.

The California Energy Commission staff will be conducting a Data Response and Issue Resolution Workshop for the proposed plant at 3 p.m. at the Kearny Research and Extension Center in Parlier on March 6.

Following the workshop, at approximately 5:30 p.m., any questions or comments about the project that are not directly related to data requests will be heard.

The 565 megawatt plant is being proposed by the Kings River Conservation District as part of the Community Choice Aggregation (CCA) program. The proposed site for the plant is on a 32.35-acre parcel on Bethel Avenue, between East Manning and East Dinuba avenues, between the cities of Parlier and Selma.
