CEC - Project Manager

Re: 07-AFC -8 Carrizo & Mr. Kessler's request for additional information on Kit Fox and Antelope pictures taken by Agena Garnett-Ruskovich.

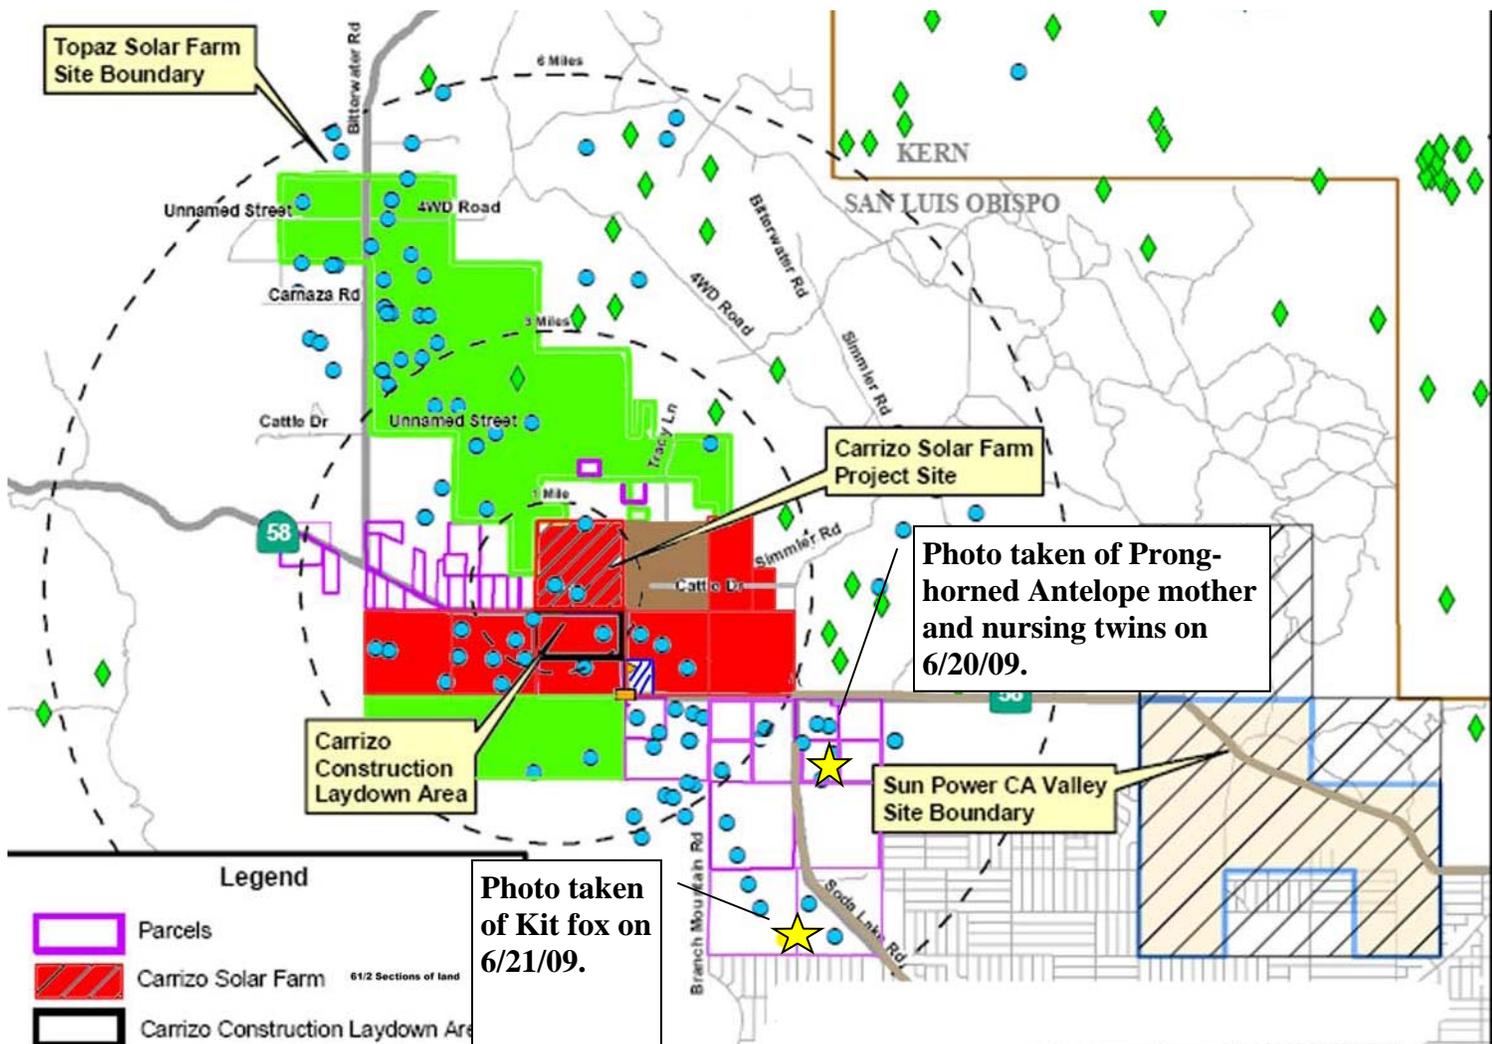

Dear Mr. Kessler,

Below is a map showing the general location where the pictures were taken, marked by a "Yellow Star". Also attached are pictures taken with comments depicting their location.

I pray that you take seriously this information/proof that the Kit Fox are alive and well on the Carrisa Plains and have not been destroyed or disturbed by agriculture. But should Asura build, these wonderful animals will be disturbed and eventually destroyed. I also request that these pictures and information be docketed.

Thank you,
Agena Garnett-Ruskovich

c: Dave Hacker, Dept. of Fish & Game
Kristeen Penrod, SC Wildlands

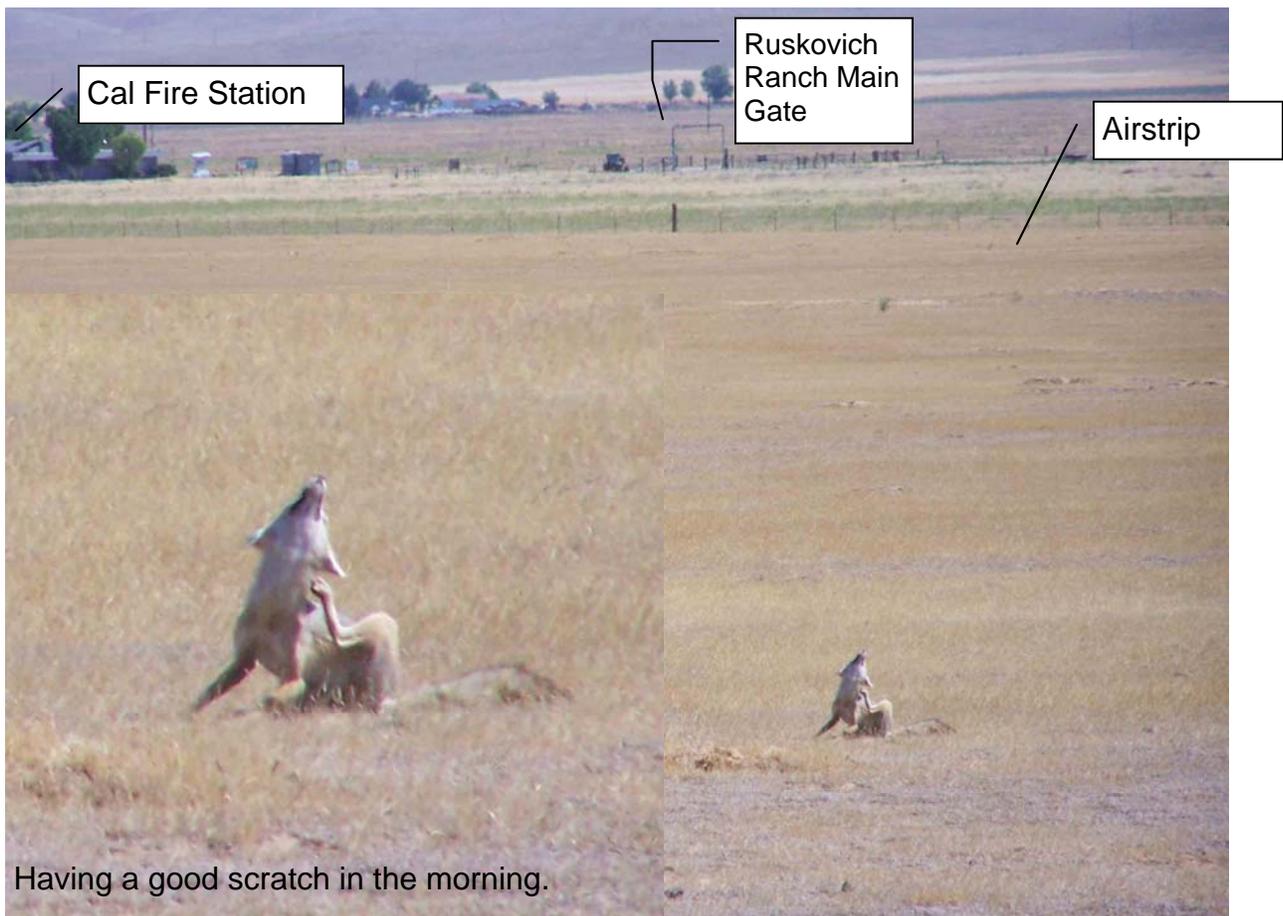

Re: 07-AFC -8 Carrizo & Mr. Kessler's request for additional information on Kit Fox and Antelope pictures taken by Agena Garnett-Ruskovich.

Page 2

Kit Fox pictures taken at T30SR18 East, Section 13(Ruskovich Ranch), South West corner about 100 yards from and going to Section 14 (Ruskovich Ranch). In the field West of the Airstrip.

John and many residences can confirm multiple sightings of Dens on Section 13 alone.

In 2006 this land was planted in Barley and was reported to the USDA Office in Templeton. **And they say Kit Fox can't live in Farm Land, GO TELL HIM THAT!**
