Re: Proposed Canyon Power Plant

Dear Commissioners Byron and Rosenfeld:

Relative to the proposed Canyon Power Plant, to be located at the northwest corner of Kraemer Boulevard and Miraloma Avenue, the City of Yorba Linda is quite interested in this planned project, especially any negative environmental impacts that may result from the construction and/or operation of the facility. The Mayor and City Council of the City of Yorba Linda have directed staff to monitor the process. The City of Yorba Linda will also be retaining a consultant to assist us in the evaluation of impacts and mitigation measures.

The purpose of this letter is to formally advise the City of Anaheim of our monitoring activities, and possible opposition dependent upon any adverse conditions related to our findings.

We look forward to working in cooperation with the City of Anaheim as we review the issues and assess the potential impacts for the City of Yorba Linda.

Sincerely,

William R. Kelly
Interim City Manager
