Re: Canyon Power Plant

Dear Mr. McFarlin and Commissioners:

Our firm represents Pamela Yoder. This letter is intended to clarify the letter dated May 29, 2008 submitted by our firm on Ms. Yoder's behalf to the California Energy Commission. Ms. Yoder's letter dated May 29, 2008 is enclosed herein for reference.

For the California Energy Commission's consideration, the property on which the Canyon Power Plant is to be developed is located nearby the following properties owned by Ms. Yoder.

- 1401 N. Kraemer Road, Anaheim, California 92806;
- 1509 N. Kraemer Road, Anaheim, California 92806;
- 1511 N. Kraemer Road, Anaheim, California 92806;
- 1513 N. Kraemer Road, Anaheim, California 92806;
- 1515 N. Kraemer Road, Anaheim, California 92806.

Che McFarlin
California Energy Commission
June 13, 2008
Page 2

Ms. Yoder also owns properties located one block north of the southeast corner of Kraemer Boulevard and East Miraloma Avenue at the following locations:

- 3051 E. La Jolla Street, Anaheim, California 92806;
- 3061 E. La Jolla Street, Anaheim, California 92806;
- 3071 E. La Jolla Street, Anaheim, California 92806;
- 3081 E. La Jolla Street, Anaheim, California 92806.

Section 6.9.1.5 of the Canyon Power Plant Application for Certification ("AFC") states that leased parking for construction traffic will be "provided at an existing parking lot for the duration of the project." AFC section 6.11.4.1.2 indicates that a pedestrian route will be identified to and from the proposed offsite parking locations. No specific information is available regarding the proposed parking location and/or the proposed pedestrian route.

Since Ms. Yoder owns at least 9 properties located adjacent to or nearby the construction site and its proposed parking locations, Ms. Yoder is concerned about (among other things) construction traffic crossing her property to access the construction site, construction workers trespassing on her properties to access the construction site, unauthorized parking on her properties by construction and delivery vehicles, traffic control measures in and around the construction site, etc. As the May 5, 2008 CEC Data Request points out, the AFC fails to provide details regarding the following:

- (1) the location of "existing parking lot" intended for construction traffic referenced in AFC § 6.9.1.5;
- (2) the location of proposed pedestrian route to and from the proposed parking locations;
- (3) the number of parking spaces available for construction vehicles (by type);
- (4) the location of entrance(s) and exit(s) for each of the parking locations; and
- (5) specific details regarding traffic control measures in and around the construction site.

We would like the Commission to request additional information from the Applicant and to take the above concerns into consideration prior to issuing any reports on the feasibility of the Canyon Power Plant and its development. Please provide notice to this firm with respect to any investigations, decisions or reports related to the development of this plant.

Very truly yours,

A handwritten signature in black ink, appearing to read "Annie C. Chu", written in a cursive style.

Re: Canyon Power Plant

Dear Mr. McFarlin:

Our firm represents Pamela Yoder. For the California Energy Commission's consideration, the property that the Canyon Power Plant is to be developed is located adjacent to property owned by Ms. Yoder. Our client is concerned about power plant traffic crossing her property to access the development, in addition to other concerns that were not addressed in the Canyon Power Plant Data Request. We would like the Commission to take this into consideration prior to issuing any reports on the feasibility of the Canyon Power Plant and its development.

Please provide notice to this firm with respect to any investigations, decisions or reports related to the development of this plant.

Very truly yours,

Annie C. Chu
