**RE: Map of Fossil Localities, Confidentiality Application,
Canyon Power Plant Project, Docket No. 07-AFC-9**

Dear Mr. Galati:

On December 21, 2007, Southern California Public Power Authority (SCPPA) filed an application for confidentiality on behalf of the Canyon Power Plant (CPP) (07-AFC-9) with the California Energy Commission (Energy Commission). On January 8, 2008, the Energy Commission inadvertently sent SCPPA an unsigned letter granting confidentiality to your request. With this letter, the Energy Commission is correcting its mistake.

SCPPA's confidentiality application seeks permanent confidentiality for AFC Appendix E3. SCPPA's confidentiality application states, in part:

Confidential Map Showing The Location of Known Fossil Localities
In The Immediate Vicinity Of The Proposed CPP. AFC Appendix
E3 specifically identifies areas of potential paleontological
significance. . . . The public interest will be served by
nondisclosure by preventing looting of the paleontological
resources sites described

. . . .

A properly filed application for confidentiality shall be granted under the California Code of Regulations, title 20, section 2505(a)(3)(A), "if the applicant makes a reasonable claim that the Public Records Act or other provision of law authorizes the [Energy] Commission to keep the record confidential."

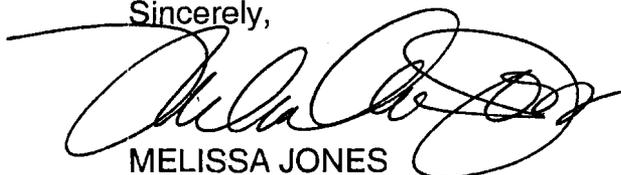

The California Public Records Act recognizes the confidentiality principles of federal law. (Gov. Code, sec. 6254(k).) The Archaeological Resources Protection Act establishes a clear, national legal policy that all types of archaeological, paleontological, and cultural resource site locations must be kept confidential in order to preserve them. (16 U.S.C. sec. 470hh.) Non-disclosure of the resource information that SCPPA has submitted is expressly in the public interest. Therefore, SCPPA's confidentiality application is granted in its entirety, and the information will be kept confidential for an indefinite period.

Mr. Scott A. Galati

Please note that any subsequent submittals related to this type of paleontological cultural resource can be deemed confidential as specified in this letter without the need for a new application under California Code of Regulations, title 20, sections 2505(a)(1)(G) and 2505(a)(4), if SCPPA files a certification under penalty of perjury that the new information is substantially similar to that which is granted confidential status by this determination.

Finally, persons may petition to inspect or copy the records that I have designated as confidential. The procedures and criteria for filing, reviewing, and acting upon such petitions are set forth in the California Code of Regulations, title 20, section 2506. If you have any further questions concerning this matter, please contact Fernando De Leon, Senior Staff Counsel, at (916) 654-4873.

Sincerely,

A handwritten signature in black ink, appearing to read 'Melissa Jones', written in a cursive style.
